

## Redefining Universal Docking.

### DK30C2DPPDUE

Eliminate compatibility worries with a dock that bridges the technology gap.

The new USB-C docking station with USB-A laptop compatibility provides a solution for the latest USB-C laptops as well as legacy USB-A models.

With capabilities for diverse video options, power delivery and compatibility across multiple operating systems, this dock redefines the term “universal”.

### Benefits:

- ✓ Extend the life of legacy laptop models
- ✓ Ease the transition to USB-C across your organization
- ✓ One solution for diverse operating systems and devices

### Additional Features

- Fast charge ports (USB-C & USB-A)
- Included combo cable (USB-C with attached USB-A adapter)
- Additional security with built-in K-slot
- Certified to guarantee the highest quality, reliability and compatibility.
